

GRAND OPENING AND RIBBON CUTTING CEREMONY

Electric Vehicle Charging Station at Jag's Petro Canada

PORT SEVERN, ON – SEGBAY Chamber of Commerce is hosting a Grand Opening and Ribbon Cutting Ceremony Friday, November 4 at 11:00 am for the new electric vehicle charging station installed at Jag's Petro Canada in Port Severn, Ontario. Jag's Petro Canada has the first 50KW DC fast charger in Canada!

Jag's Petro Canada received funding through the Electric Vehicle Chargers Ontario (EVCO) grant program. The province is working with 24 public and private sector partners to create a network of electric vehicle stations in cities, along highways and at workplaces and public places across Ontario.

With this unprecedented expansion in new charging infrastructure across the province, electric vehicle owners can now plan longer trips with more confidence because charging stations will be more readily available, similar to gas stations.

About ChargePoint

ChargePoint operates the world's largest electric vehicle (EV) charging network, with more than 30,000 spots to plug in and charge. They are transforming the transportation industry by providing the charging stations, mobile apps, analytics and charging network that allow property owners and drivers to benefit from EV charging. ChargePoint is also transforming the energy industry by providing intelligent solutions to help people and businesses shift away from fossil fuels and use electricity more efficiently. Their mission is to get all drivers behind the wheel of an EV and provide them a place to charge whether at home, at work, around town or out-of-town. More than 396 million gas-free miles have been driven on ChargePoint's network, and its drivers have collectively avoided more than 15.9 million gallons of gasoline and 50 million kgs of CO2 emissions.

About Auto Chargers

Auto Chargers has been a Premier ChargePoint partner in Canada since 2013. Auto Chargers has established itself on the Canadian market as one of the most trusted suppliers and installers in the electric vehicle supply equipment (EVSE) marketplace. The company completed the largest Canadian EVSE implementation to date, with 24 charging ports in a single location at the Orlando Corporation's Heartland Shopping Center in Mississauga.
